

Easy & Quick setup

Features

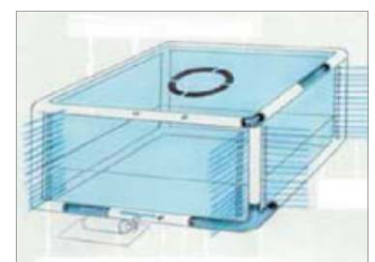

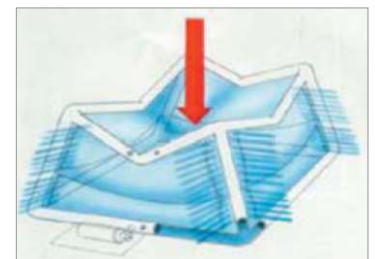

- Easily inflatable and deflatable
- Automatic re-erection within 20 sec. after a jump.
- Standard connection compatible with the brigade standard.
- Relief valves prevents over pressure
- Light-weight
- Rescue Cushion may be placed on almost any surface including gravel and kerbstones
- System LORSBACH

Fields of use

Ideal for rescuing persons when it is not possible to use a ladder.

The inflatable Rescue Cushion is ideal for rescuing persons when it is not possible to use a ladder. The unit is very fast to deploy and facilitates rapid evacuation. It is very stable, there is almost no bounceback. The cushion always deforms towards the centre and it is easily transported whether packed or inflated.
