

wind extinguisher forest fire

Wind extinguisher .

Description as below:

Comply with GB / T 10280-1999 "portable pneumatic extinguishers" standard. For no fixed fire extinguishing water can effectively extinguish occasional shrub weak degree of forest fires, grassland and forest ground fire.

Outlet air flow: $\geq 0.4 \text{ m}^3 / \text{s}$;

A refueling continuous working time: 25min

Starting time: $\leq 30\text{S}$;

Net mass / fan power ratio: $\leq 5.8 \text{ kg} / \text{kw}$;

Wind: (from 2.5m at the center of the fan) $\geq 22\text{m} / \text{s}$;

Static balance impeller unbalance: $\leq 5 \text{ g.cm}$;

Fan total pressure efficiency (%) ≥ 60 ;

The handle vibration (m/s^2) ≤ 30 ;

Ear noise (db (A)) ≤ 105 ;
