

## 63MPa hydraulic steel cutter, steel pipe cutter for emergency, 700bar steering cutting plier hydraulic cutter

### Product Description

#### 1. Description:

Comply with GB/T17906-1999 "Hydraulic dismantling tool general technology requirement" standard.

Use to cut concrete steel, iron plate, steel pipe and other metal products in accident with long life, advanced design.

#### 2. Specifications:

Item	Specification
Working pressure (MPa)	63
Cutting ability (mm)	Φ25 (round steel)
Weight (Kg)	12.5
Size (mm)	650×200×160
Max opening distance (mm)	150
Working temperature	-30°C~+55°C
Packing size: (L*W*H)cm	87X28X24cm, 1 set/carton
