

KZC80A Miner's Cap Lamp Charging Rack

KZC80A Rack Charger is a special charger for LED miner's cap lamp, adopts power switch circuit, double color indicating light, it has high mechanical intensity, wide range of voltage, clear to show the charging status, convenient to use, safe and reliable etc.

Product Feature

TECHNICAL PARAMETERS:

Type	KZC80A Modular charging rack
Input voltage	AC85V-250V
Output voltage	DC7V±0.5V
Charging capacity	80PCS
Dimensions	1160×380×1820mm

Application scenarios
