

KZC1B Miner's Cap Lamp Single Charger

KZC1B Single charger adopts ABS engineering plastic case, switch power supply circuit and two-color luminotron indication with high mechanical strength, wide voltage range, small in size, light in weight, visual charging state, convenient and reliable to use. The charger is applied to non-explosive environment to charge all kinds of led miner's cap lamp.

Product Feature

TECHNICAL PARAMETERS:

Input voltage	AC85V-250V
Output voltage	DC7V±0.5V
Charging capacity	1PC
Dimensions	103×60×50mm

Application scenarios
