

KL6Ex LED Miner's Cap Lamp

It is an ATEX certified wired LED headlight for personal lighting in explosive hazard environments.

Product Feature

TECHNICAL PARAMETERS:

Battery type		Lithium manganate	
Nominal capacity		6Ah	
Rated voltage		3.7 V	
Lighting time		>16h	
Main light source	Operating current	0,28A	
	Maximum illumination (1 m away from the lamp)	light up and last 11h	≥5000lx
Rated power for LED auxiliary lighting source		0.2 WATTS	
Lid lamp life		>2 years	
Charging voltage		(6~8) IN	
Charging time		≤10h	
Explosion-proof type		Ex ia I Ma	
Battery housing dimensions		105×31×120m m	
Weight		≤0.65 kg	
Product Certification	ATEX Certificate No.		Baseefa09ATEX0205-Issue 2
